

# Ideation Phase

## Brainstorm & Idea Prioritization Template

Date	03 November 2023
Team ID	592207
Project Name	Predicting Mental Health Illness of Working Professionals Using Machine Learning
Maximum Marks	4 Marks

### Brainstorm & Idea Prioritization Template:

In today's fast-paced workplace, mental health is a growing concern. Organizations are realizing the importance of addressing mental health challenges, but identifying when an employee needs support can be difficult due to individual variations and stigma. A proposed Mental Health Prediction system aims to predict treatment needs based on data and self-reports, incorporating data analysis, privacy measures, AI support, and early warnings. Alongside this, workplace initiatives seek to create a holistic approach. The goal is to cultivate a workplace culture that values mental health, offering proactive, privacy-conscious support to at-risk employees, enhancing well-being, reducing stigma, and fostering a productive, supportive work environment.

#### Step-1: Team Gathering, Collaboration and Select the Problem Statement

Template

## Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

 10 minutes to prepare  
 1 hour to collaborate  
 2-8 people recommended

### Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

 10 minutes

 **Team gathering**  
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

 **Set the goal**  
Think about the problem you'll be focusing on solving in the brainstorming session.

 **Learn how to use the facilitation tools**  
Use the Facilitation Superpowers to run a happy and productive session.

[Open article](#) 

### Define your problem statement

Develop a mental health prediction system that can accurately and reliably predict whether a person needs to seek mental health treatment or not, based on inputs provided by them. The system should be easy to use and accessible to people from all backgrounds. It should also be designed in a way that is ethical and respectful of people's privacy.

**PROBLEM**  
**How might we**  
Develop a mental health prediction system that can accurately and reliably predict whether a person needs to seek mental health treatment or not, based on inputs provided by them. The system should be easy to use and accessible to people from all backgrounds. It should also be designed in a way that is ethical and respectful of people's privacy. ?

## Step-2: Brainstorm, Idea Listing and Grouping

2

### Brainstorm

Brainstorming Ideas for the Mental Health Prediction System

10 minutes

**TIP**  
You can select a sticky note and find the pencil icon to write it (or to edit drawing)

3

### Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

**TIP**  
Ask your instructor to verify notes to make it easier to find, group, separate, and categorize important ideas as they will be your final

## Step-3: Idea Prioritization

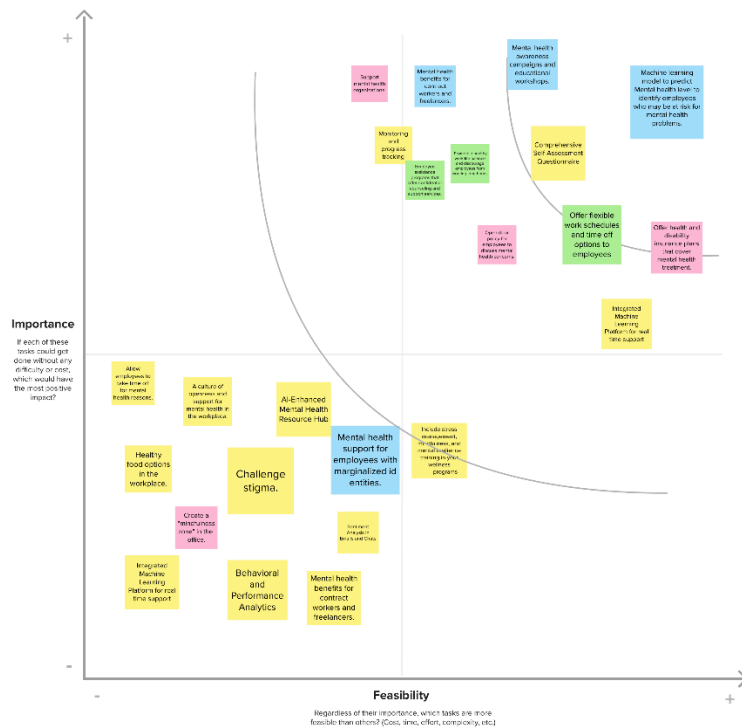

4

### Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

**TIP**  
Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the mouse pointer holding the **H** key on the keyboard.

5

### After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

#### Quick add-ons

- Share the mural**  
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.
- Export the mural**  
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

#### Keep moving forward

- Strategy blueprint**  
Define the components of a new idea or strategy.
